About me

Mobile Developer with 3 years' experience in Android (Kotlin) and iOS (Swift), plus cross-platform skills in Unity and Flutter. Passionate about building performant apps with great UX and collaborating in agile teams.

3 years of experience in Android (Kotlin) and iOS (Swift) development. Skilled in native and cross-platform solutions (Unity, Flutter). Focused on UI/UX, app performance, and scalable mobile solutions.

Experience

2023 – 2026

Mobile Developer – Digitarca Srl (Mola di Bari)

- Developed and maintained Android (Kotlin) and iOS (Swift) apps.
- Managed store releases (Google Play & App Store): bundles, certificates, profiles, app listings.
- Built responsive UIs following Material Design & Human Interface Guidelines.
- Applied MVVM, Coordinator, and lifecycle/state management patterns.
- Integrated REST APIs, authentication, push notifications (Firebase, APNs), analytics, local storage (Room, Core Data).
- Developed cross-platform apps with Unity (2D/3D, multi-device support).
- Explored Flutter for MVPs and experimental projects.
- Collaborated with designers (Figma/Zeplin) and backend teams in Agile workflows.
- Ensured stability & performance (Firebase Crashlytics, resource optimization).
- Produced technical documentation and contributed to team knowledge sharing.

Technical Skills

- Languages: Swift, Kotlin, C#, Dart
- Frameworks: iOS SDK, Android SDK, Flutter, Unity
- Tools: Xcode, Android Studio, Git, Jira
- Design Patterns: MVVM, MVC
- Other: REST APIs, Firebase, Mobile UI/UX

Additional Info

- Available for remote or hybrid teams.
- Strong interest in emerging mobile & cross-platform tech.
